HCA North Texas Agrees to Purchase Forest Park Medical Center in Dallas

Irving -- HCA North Texas, one of the region's largest and most comprehensive health care providers, has agreed to purchase Forest Park Medical Center in Dallas from FPMC Realty Partners III and BT Forest Park Realty Partners, LP. The transaction is subject to certain closing conditions, including court approval of the sale and other regulatory approvals. Closing is expected in mid to late June.

Once complete, the acquisition will mark another milestone in an unprecedented era of growth for HCA North Texas. In little more than a year, the health system has acquired Medical City Frisco, opened Medical Center Alliance, acquired the CareNow urgent care network, and added new trauma programs across its 13 hospitals.

"In order to meet the needs of our growing North Texas community, Medical City Dallas Hospital continues to expand clinical services for both adults and children," says Erol Akdamar, HCA North Texas Division President, "The addition of this property will add needed capacity and allow us to proactively plan for the continued growth of the exceptional complement of services we provide."

The purchase includes 2 hospital towers, the parking garage, and a 4-acre parcel of land adjacent to the buildings. The 190,000 square foot hospital, located just north of Forest Lane on I-75, has 84 beds, 22 operating suites, and 16 ICU rooms.

"We look forward to collaborating with the physicians in our community to determine the highest and best use of this additional capacity," says Akdamar, "Our shared goal is the expansion of high quality health care services for patients in North Texas."

About HCA North Texas

Committed to the care and improvement of human life, HCA North Texas strives to deliver excellence always - providing the highest quality, cost-effective health care in the communities it serves. With the resources and strength of Hospital Corporation of America (HCA), the nation's leading provider of quality health care services with 165 hospitals in the United States and England, HCA North Texas is one of the region's largest most comprehensive health care providers and includes 16 hospitals, 79 patient care sites, more than 5500 active physicians and 15,000 employees in Dallas-Fort Worth and Oklahoma. Four HCA North Texas hospitals are accredited comprehensive stroke centers, five hospitals hold the prestigious Magnet Recognized® status from the American Nurses Association, and six have been recognized by Joint Commission as Top Performers in the nation.
