

Cover up!

Modern Healthcare

The dog days of summer have arrived—running from July 3 to Aug. 11, according to the Old Farmer's Almanac. The 40-day stretch typically coincides with the hottest days of the year. Perfect for sitting by the pool, lake or ocean. But don't forget that sunscreen, or better yet, head-to-toe UV-blocking swimwear.

3 MILLION Number of people with nonmelanoma skin cancer annually
—American Academy of Dermatology

\$8.1 BILLION
Estimated annual cost of treating skin cancers

1 in 5 
Americans will develop skin cancer by the age of 70

90% of nonmelanoma cancers are associated with exposure to ultraviolet radiation from the sun
